

# I'm Pre-Approved, Now What?

1

You'll find a real estate professional who will help you obtain access to online home listings! Let us know who you decide to work with (if we don't already know), so we can send them your pre-approval letter and establish a plan!

2

You'll check online listings and attend open houses. Your agent will help arrange private showings for homes too.

3

Once you find a home you're seriously interested in- Call us right away! We'll get you an estimated payment specific to that property and connect with your real estate agent.

4

You'll work with your agent to create a compelling offer, which they'll submit to the seller's agent along with your pre approval.

5

The seller will either: Accept your offer, Reject your offer, or counter your offer with different terms for you to consider.
